## Connecting your Chipper™ 2X BT to Shopify POS

- **Download the Shopify POS app** from the Apple App Store on an iOS device and log in to your store
- **Turn on the Chipper™ 2X BT** by pressing the power button
- **Open the Shopify POS app on your iOS device and tap** *Settings → Set up hardware → Card readers* and select the *Chipper™ 2X BT*
- **Follow the Shopify POS prompts** on your iOS device screen to connect and start accepting payments
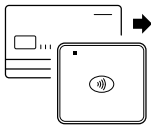

Accepting payments

You can accept popular tap, chip, and swipe payment methods with the Chipper™ 2X BT. Before you start selling, make sure your device is connected and the Shopify POS app will guide you through checkout.
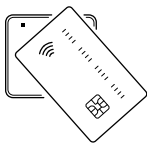

For tap card or digital wallet:
Tap card or digital wallet on the front of the reader
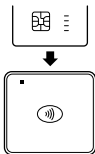

For chip card:
Insert card at the top of the device

For swipe card:
Swipe card at the back of the device
